5:25 a.m.

Norcross, GA

If you are standing inside a room with the doors closed and windows closed and blinds closed and the curtains closed, how could you distinguish which direction was the north, south, east or west? A person cannot know the compass of north, south, east, or west when the room is completely closed off from viewing the outside. No light is coming inside this closed room to know the direction of the sun.

This same principle is applied to a person not opening his or her Holy Bible.

By just having a Holy Bible in the room will not help a person know the LORD nor know how to obey and serve or seek Him.

When we open the curtains, open the blinds in the room, we will know by the directions of the sun, which direction is north, south, east or west.

The Light of the Almighty GOD through the Son of GOD through the Holy Spirit will give us the righteous and narrow path of complete direction toward becoming a humble obedient servant doing His will in our lives.

Opening our Holy Bible and reading it will help us to know God's direction of how to serve, obey, and seek Him in a way that is pleasing to Him.

Spiritual closed blinds and closed curtains will cause a closed and false misguided dark direction on a wide and spacious path leading to spiritual death.

A closed Holy Bible only setting on a shelf or table not read and only picked up one day a week will cause a closed heart, closed mind, and closed relationship with God resulting in a misguided and misunderstood lifestyle.

We need the Son of God to help us with a true focus directed walk with the heavenly Father by the Holy Spirit.

Just as the earth's sun giving us a point of reference for the compass directions of north, south, east, or west, the Son of God will give us Spiritual points of reference directing us to his heavenly Father.
